

iFIX EAST-WEST VERSION 2022 (VERSION 2021)

The smart mounting system for photovoltaic installations

ONE technology. ONE material. ONE component. The highly sophisticated mounting system is designed for flat roofs, even those with a low load-bearing reserve. Pressed from a single plate, the fixing system is constructed from corrosion-resistant steel. It combines mounting system and PV module fixation points and reduces assembly time on the roof to a minimum.

Convincing advantages:

- » Low logistics costs due to high packing density
- » Quick and simple assembly
- » Large contact area, minimal surface pressure, also for soft insulation material

Features	Characteristics		
Field of application	Flat roofs with maximum roof pitch of 3°		
	with and without parapets		
	Surfaces: Foil covering, bitum covering, concrete,		
	gravel or green roofs		
	Non permanently stagnant water		
	Wind zones 1 to 3 (at least 3 km from the coast)		
	Peak velocity pressure up to 1,400 N/m ² *		
	Pressure loads up to 3.8 kN/m ² *		
	Within Alpin supports pressure load up to 5.4 kN/m ² *		
	Building heights of up to 25 m		
	Minimum distance to roof edge 0.5 m		
Surface pressure	Contact area per mounting frame: max. 0.28 m ²		
	consequently minimal surface pressure		
Module orientation	Horizontal		
Module installation angle	10°		
Mountable	Frame dimensions:		
PV module with frame	Min. 1,640 x 990 mm		
	Max. 2,100 x 1,145 mm (x 1,135 mm)		
	Max. area of 2.17 m ² is key determinant		
	Height 30 to 40 mm		
Modular dimension in rows	PV module length +20 mm		
	Separation after max. 14.5 m		
Modular dimension row to	1,210 mm (1,185 mm)		
row	No separation necessary		
Height without PV module	227 mm		
Material	Steel sheet: Corrosion-resistant zinc-magnesium		
	coated steel sheet		
	Module clamps: Special steel		

All information specified in this brochure is according to the current status of our knowledge and experience. As printed materials cannot be updated, please refer to our website for the most recent version. Subject to technical changes, printing, and typesetting errors. More detailed information is available in the installation instructions.
