

LEOVA® 60/40 TOP

Europe's strong vineyard post

Wire width: 63 mm

- » Maximum load bearing capacity
- » Designed for harvesting machinery
- » For all common types of wire
- » Easy to set
- » voestalpine quality steel
- » Batch-galvanized
- » Strip-galvanized
- » Option for attaching spring spreader

The leova® 60/40 TOP steel post offers a great degree of torsional stiffness as well as lateral and bending stability.

A setting distance of 6 m is also possible with a foliage height of > 2 m.

This saves time and money. With their outstanding properties, they are the strongest vineyard posts in Europe. This has been tested and confirmed by Vienna Technical University.

STRONG AS A LION – SUITED TO YOUR REQUIREMENTS

Batch-galvanized in accordance with the EN ISO 1461 standard

Extremely long service life due to full galvanization with 70 – 80 µm zinc coating.
