

CERTIFICATE OF VERIFICATION

RECYCLED CONTENT CLAIM VERIFICATION

For the period **01.01.2025 - 31.12.2025**, DEKRA Assurance Services, as an independent partner, confirms the verification of the recycled content claim of

voestalpine Stahl GmbH
voestalpine-Straße 3
4020 Linz, Austria

for the steel slab and casting production in accordance with ISO 14021.

It can be confirmed that the recycled content in steel slab and casting production at the Linz production site in 2025 is on average 24,6% (24,1% pre-consumer scrap, 0,5% post-consumer scrap)

The following subjects were verified by DEKRA Assurance Services GmbH:

- Internal system documentation on scrap yard deliveries to the steel mill corresponds to the recycled content calculation
- Scrap yard inventory together with external and internal scrap deliveries cover the steel mill consumption and the recycled content calculation
- Deliveries to the scrap yard selected by random inspection were independently verified in terms of scrap types and quantities

Further details can be found in the verification report 120320047-1 which provides a detailed overview of goal and scope, process, assessment and results of the verification. The recycled content claim verification is subject to periodic surveillance and is only valid for the above-mentioned period.
