

Certificate of Approval

This is to certify that the Management System of:

voestalpine Stahl GmbH

voestalpine-Straße 3, 4020 Linz, Austria

has been approved by LRQA to the following standards:

ISO 9001:2015

Approval number(s): ISO 9001 – 00349696

This certificate is valid only in association with the certificate schedule bearing the same number on which the locations applicable to this approval are listed.

The scope of this approval is applicable to:

Design and development, production and sale of crude steel, hot-rolled sheet and strip, cold-rolled sheet and strip, coated sheet and strip, non-oriented electrical steel, ferric oxide, ferrous sulfate, metallurgical by-products, heavy plates, cut steel strips, steel blanks and steel castings including services as: Rail transportation, roadway transportation and shipping services, Energy-/ process media supply (power, water, steam, gas), plant maintenance and engineering, testing technology & analyses. Electrical Maintenance department with following tasks: Industrial maintenance of electrical facilities, electrical machines and chiller systems. Services and competence in electrical inspections for legal compliance. Condition Monitoring, mechatronic systems and measuring systems with quality assurance. Low voltage engineering and automation, Supervision of erection and commissioning of electrical industrial facilities. Industrial maintenance and manufacturing of plant-, mechanical engineering- and steel components; services with method competence in the welding and thermal spray coating technology, mobile machining, hydraulic systems, measuring technique, legal examinations as well as the manufacturing-, assembling supervision and commissioning of industrial plants. Industrial maintenance of plant- / mechanical engineering -/ steel components; services with method competence in the legal examinations (cranes, industrial doors) as well as the manufacturing-/assembling supervision and commissioning of industrial plants. Design and development, manufacture and distribution of steel castings, non-ferrous metals castings, heavy plates, clad plates, multi-layer plates, plate cuttings and plate pressings. Manufacturing of longitudinally cut steel strips, cut plates, steel blanks, cut shapes, parts and components. Rail transportation, roadway transportation and shipping services at site Linz of voestalpine; Planning, engineering, administration, and maintenance services for roadway and rail cars (including fueling/ mechanical services), track infrastructure and security/safety installations Contract logistics, customs clearance and forwarding services. Implementation of technical training and advanced training for railway employees and personnel for the transport sector, by the LogServ Verkehrsakademie. Performance of railway services. Procurement of metallurgical raw materials for voestalpine Group especially coal, energies, iron ore, refractories, additives, scrap, metals and alloys including procurement logistics.

Paul Graaf

Area Operations Manager, Europe

Issued by: LRQA Limited
