

CONSOLIDATED CORPORATE GOVERNANCE REPORT 2023/24

COMMITMENT TO THE CODE OF CORPORATE GOVERNANCE

The Austrian Code of Corporate Governance (the “Code”) provides domestic stock corporations with a framework for managing and monitoring their companies. It serves to establish a system for managing and controlling companies and groups that is accountable and geared to creating sustainable, long-term value. This is designed to ensure a high degree of transparency for all stakeholders of a company.

The Code is based on the provisions of Austrian stock corporation, stock exchange, and capital market law; the EU recommendations regarding the responsibilities of members of supervisory boards and the compensation of directors; and the OECD Principles of Corporate Governance. The Code has undergone a number of revisions since 2002. The present Corporate Governance Report is based on the Code’s most recent amendment, which was adopted in January 2023.

» The Code can be accessed at
www.corporate-governance.at

The Code achieves validity when companies voluntarily undertake to adhere to it. The Management Board and the Supervisory Board of voestalpine AG decided as early as 2003 to recognize the Austrian Code of Corporate Governance and have also accepted and implemented the amendments introduced since that date. voestalpine AG is thus committed to complying with the Austrian Code of Corporate Governance as amended.

In the business year 2023/24, voestalpine AG complied with the Code’s mandatory “L Rules” in addition to all “C Rules”—with the exception of C Rule 39, from which it deviated—and all “R Rules.”¹

Under the Code’s provisions, any non-compliance with its C Rules (comply or explain) must be explained and justified. By providing the following explanation, voestalpine AG is adhering to the Code’s requirements:

¹ The Austrian Code of Corporate Governance contains the following rules: “L Rules” (= Legal) are measures prescribed by law; non-compliance with the “C Rules” (= Comply or Explain) must be justified; “R Rules” (= Recommendations) are recommendations.

Rule 39:

Under C Rule 39, the majority of committee members shall satisfy the independence criteria established by the Supervisory Board in accordance with C Rule 53. In addition to one employee representative, the General and Compensation Committee includes two members elected by the Annual General Meeting. Having been elected Chairman of the Supervisory Board of voestalpine AG with effect from April 1, 2022, pursuant to the Supervisory Board's rules of procedure Dr. Wolfgang Eder also chairs both the General Committee (which simultaneously serves as the Nominating Committee) and the Compensation Committee. Owing to his prior position as Chairman of the Management Board of voestalpine AG

until July 3, 2019, Dr. Eder does not fulfill one of the Supervisory Board's criteria of independence as stipulated in Rule 53 of the Code. As a result, these two committees do not comply with Rule 39 of the Code, because the majority of the committee members elected by the Annual General Meeting do not fulfill the independence criteria required by the Supervisory Board. By electing Dr. Eder as Chairman of the Supervisory Board and thus also Chairman of the General and Compensation Committee, the Supervisory Board is relying—in the company's interest with regard to these key responsibilities—on his many years of experience in both the industry and management as well as his insights into the Group.

All Supervisory Board positions held by the shareholder representatives end as of the close of the Annual General Meeting of voestalpine AG tasked with adopting resolutions regarding the business year 2023/24.

None of the members of the Supervisory Board missed more than one half of the meetings of the Supervisory Board during the past business year. Seven members of the Supervisory Board attended all nine meetings of the Supervisory Board in the 2023/24 business year. Two members were unable to attend one meeting and two members were unable to attend two meetings.

COMPENSATION REPORT FOR MANAGEMENT BOARD AND SUPERVISORY BOARD

The compensation of the members of the Management Board and the members of the Supervisory Board for the business year 2023/24 is accounted for as part of the Compensation Report to be prepared in accordance with Sections 78c and 98a Austrian Stock Corporation Act (*Aktien-gesetz – AktG*). The Compensation Report will be submitted to the Annual General Meeting on July 3, 2024, for a vote and subsequently published on the company's website. In contrast to previous years, therefore, there will be no separate reporting on compensation as part of the Consolidated Corporate Governance Report.

INFORMATION REGARDING THE INDEPENDENCE OF THE MEMBERS OF THE SUPERVISORY BOARD

Under Rule 53 of the Austrian Code of Corporate Governance (the "Code"), the majority of the members elected to the Supervisory Board by the Annual General Meeting shall be independent of the company and its Management Board. The Supervisory Board shall establish and publish criteria regarding such independence (see www.voestalpine.com » Investors » Corporate Governance).

Based on the criteria established by the Supervisory Board, all members elected to the Super-

visory Board by the Annual General Meeting, with one exception, have confirmed that they consider themselves to be independent. Supervisory Board member Dr. Wolfgang Eder pointed out in his confirmation that, given his position as the Management Board Chairman of voestalpine AG until July 3, 2019, he does not fulfill one of the Supervisory Board's criteria of independence. With the exception of Dr. Heinrich Schaller (who represents the shareholder, Raiffeisenlandesbank Oberösterreich Invest GmbH & Co OG) and Mag. Maria Kubitschek (who represents the voestalpine Mitarbeiterbeteiligung Privatstiftung), none of the Supervisory Board members elected by the Annual General Meeting are shareholder members with an investment of more than 10% in voestalpine AG or represent the interests of such shareholders (Rule 54).

As legal counsel to voestalpine AG and its subsidiaries, the law firm Binder Grösswang Rechtsanwälte GmbH, of which the Supervisory Board member Dr. Florian Khol is a partner, provided legal services in the business year 2023/24 particularly in connection with matters related to capital market, civil and copyright law. Fees for these matters were billed at customary market rates. For the business year 2023/24, total net fees of EUR 53,202 (2022/23: EUR 32,237.67) were incurred for services provided by the law firm Binder Grösswang Rechtsanwälte GmbH. Until June 30, 2023, Supervisory Board member Prof. Elisabeth Stadler was the Chairwoman of the Management Board of Vienna Insurance Group AG (Wiener Versicherung Gruppe – VIG). The voestalpine Group has purchased insurance policies from VIG at terms and conditions customary for the market and industry primarily for the following areas: property/business interruptions, corporate liability, and transportation. In the business year 2023/24, VIG accounted for about 34% (2022/23: about 33.8%) of the voestalpine Group's premiums for insurance programs.

COMMITTEES OF THE SUPERVISORY BOARD

The Articles of Association authorize the Supervisory Board to appoint committees from among its ranks and to define their rights and responsibilities. The committees may also be given the right to make decisions. In accordance with the ratio defined in Section 110 (1) Austrian Labor Constitution Act (*Arbeitsverfassungsgesetz – ArbVG*), the employee representatives on the Supervisory Board have the right to nominate members with a seat and a vote for Supervisory Board committees. The following Supervisory Board committees have been established:

GENERAL COMMITTEE

The General Committee simultaneously serves as the Nomination Committee as defined in the Code. The Chairman of the Supervisory Board and one or all of his deputies are members of the General Committee. With the exception of matters concerning relations between the company and the members of the Management Board, pursuant to Section 110 (1) ArbVG one or two employee representatives are also members of the General Committee.

The General Committee is responsible for executing, amending, or rescinding directors' contracts with members of the Management Board as well as for all matters associated with the administration of Management Board members' stock option plans. As the Nomination Committee, the General Committee submits recommendations to the Supervisory Board concerning candidates for positions on the Management and/or Supervisory Board that are becoming vacant. The General Committee is authorized to make decisions in urgent cases.

Members of the General Committee of the Supervisory Board:

- » Dr. Wolfgang Eder (Chairman)
- » Dr. Heinrich Schaller
- » Hans-Karl Schaller

AUDIT COMMITTEE

The Audit Committee is tasked with the responsibilities set forth in Section 92 (4a) AktG and in Rule 40 of the Code. Hence it is responsible for monitoring the financial reporting process; reviewing and monitoring the auditor's independence and supervising their work; reviewing and preparing the adoption of the annual financial statements; reviewing the proposal for the appropriation of earnings, the Management Report, and the Consolidated Corporate Governance Report; and approving non-audit services. It is also tasked with monitoring the consolidated financial reporting process, reviewing the Group's Consolidated Financial Statements, and submitting a recommendation for the selection of the auditor. The Audit Committee also is responsible for monitoring the effectiveness of the Group-wide Internal Control system, Internal Audit, and the Risk Management system as well as for reporting the findings of its reviews to the Supervisory Board.

Members of the Audit Committee of the Supervisory Board:

- » KR Dr. Franz Gasselsberger, MBA (Chairman)
- » Dr. Wolfgang Eder
- » Dr. Heinrich Schaller
- » Hans-Karl Schaller
- » Josef Gritz

COMPENSATION COMMITTEE

The Compensation Committee consists of at least two shareholder representatives, including the Chairman of the Supervisory Board. It prepares

proposals for the Compensation Policy applicable to the members of the Management Board and monitors whether the directors' contracts with Management Board members comply with the policy.

Members of the Compensation Committee of the Supervisory Board:

- » Dr. Wolfgang Eder (Chairman)
- » Dr. Heinrich Schaller
- » Hans-Karl Schaller

In the business year 2023/24, the majority of members of all Supervisory Board committees, with the exception of the General Committee and the Compensation Committee, met the criteria for independence pursuant to Rule 53 of the Austrian Code of Corporate Governance. In addition to one employee representative, the General and Compensation Committee includes two members elected by the Annual General Meeting. Having been elected Chairman of the Supervisory Board of voestalpine AG with effect from April 1, 2022, pursuant to the Supervisory Board's rules of procedure Dr. Wolfgang Eder also chairs both the General Committee (which simultaneously serves as the Nominating Committee) and the Compensation Committee. Owing to his prior position as Chairman of the Management Board of voestalpine AG until July 3, 2019, Dr. Eder does not fulfill one of the Supervisory Board's criteria of independence as stipulated in Rule 53 of the Code. As a result, these two committees do not comply with Rule 39 of the Code, because the majority of the committee members elected by the Annual General Meeting do not fulfill the independence criteria required by the Supervisory Board. By electing Dr. Eder as Chairman of the Supervisory Board and thus also Chairman of the General and Compensation Committee, the Supervisory Board is relying—in the company's

interest with regard to these key responsibilities—on his many years of experience in both the industry and management as well as his insights into the Group.

NUMBER OF AND SIGNIFICANT CONTENT OF THE SUPERVISORY BOARD AND COMMITTEE MEETINGS IN THE BUSINESS YEAR 2023/24

During the business year 2023/24, the Supervisory Board fulfilled its responsibilities under the law and the Articles of Association, holding nine plenary sessions, three meetings of the Audit Committee, eight meetings of the General Committee and three meetings of the Compensation Committee.

In both the General Committee and the Audit Committee meetings, the Management Board provided comprehensive oral and written information regarding the development of the company's business as well as its financial management and position.

In addition to these regular reports, the Supervisory Board gave particular attention in the business year 2023/24 to the appointment of members and the composition of the Management Board as of April 1, 2024, the Strategy 2030+, including the HR strategy, the long-term supply of energy and raw materials, the critical topic of sustainability as well as the compensation policy for members of the Management and Supervisory Boards. Another focus of the Supervisory Board meetings was the Management Board's report on the implementation of the first steps towards decarbonizing steel production at the Linz and Donawitz sites. This concerns the replace-

ment of two of the five coal-based blast furnaces currently in operation with one electric arc furnace powered by renewable electricity at each of the two sites, which was approved by the Supervisory Board in March 2023. As part of the plan developed under "greentec steel" with an investment volume of EUR 1.5 billion, the main plants were awarded in the business year 2023/24. Commissioning of the two units is planned for 2027. The goal is to reduce 30% of the Group's CO₂ emissions (Scope 1 and Scope 2) by 2029 compared to 2019 following a successful ramp-up. This equates to about 5% of Austria's overall annual CO₂ emissions, making the project the country's largest singular undertaking in terms of climate action. The company's long-term aim is steel production with net zero carbon emissions. To achieve this goal by 2050 at the latest, the Group is researching several new processes and investing in pilot projects exploring alternative pathways in steel production. These include research projects such as the H2FUTURE hydrogen pilot facility at the Linz plant for manufacturing and using "green" hydrogen on an industrial scale, as well as the testing facilities at the Donawitz plant for carbon-neutral steel production based on direct reduction of iron ore using hydrogen. Further research projects are dedicated to the capture, storage, and utilization of carbon dioxide (CCUS). The Management Board's reporting also included the construction of the new stainless steel plant at the Kapfenberg site, another key Group project in terms of both innovation and sustainability. The world's most modern plant of its kind was put into operation in the business year 2023/24.

In addition to questions of compensation, the General Committee focused primarily on filling positions on the Management Board as of April 1, 2024, and the preparations for the elec-

tion of the new Supervisory Board at the 2024 Annual General Meeting.

The Compensation Committee monitored compliance with the compensation policy in the employment contracts of the Management Board members and prepared a proposal concerning the compensation policy for the Management Board members for submission to the Supervisory Board and subsequently to the Annual General Meeting of voestalpine AG on July 3, 2024.

The Audit Committee concerned itself chiefly with the preparation and review of voestalpine AG's Consolidated and Annual Financial Statements, the auditor's independence, and topics related to the current and future structure of the internal control system, the risk management system, and Internal Audit.

The representatives of the auditing firm, Deloitte Audit Wirtschaftsprüfungs GmbH, attended all three meetings of the Audit Committee in the business year 2023/24 and were available for questions and discussions.

At its meeting on March 19, 2024, the Supervisory Board also carried out the self-evaluation required under Rule 36 of the Code and, after asking the Management Board to leave the room, used a list of questions to address the general cooperation between the Management Board and the Supervisory Board, the quality and scope of the documents made available to the Supervisory Board, and organizational issues.

PRINCIPLES OF THE voestalpine GROUP'S COMPENSATION POLICY

Employees' total compensation takes the form of fixed, market-rate salaries, some of which are supplemented by variable compensation.

The amount of the fixed salaries is based on the activities, role, and position of the given employee, as well as their individual experience and expertise. Any relevant statutory requirements and contracts under collective bargaining agreements or works agreements are complied with as applicable. In the event of supplementary, variable compensation, the amount of this compensation component is contingent on the achievement of stipulated targets. Depending on the given employee's role, both qualitative and quantitative targets are agreed. The qualitative targets are usually set for one business year at a time, whereas the quantitative targets are usually set either for one business year at a time or for a minimum of three years.

Requirements applicable to managing directors and officers of the Group in Austria concern the amount of the maximum possible variable compensation and the weighting of the targets. Compensation packages for all other employees are determined by each individual company in line with market conditions, taking into account both local practice and local requirements. Various compensation elements are possible in this connection, including non-monetary components:

- » Pension plans (e.g., the Austrian pension fund)
- » Insurance (e.g., accident insurance)
- » Discounts at the cafeteria
- » Coupons

The compensation packages of managing directors and officers always include variable compensation (bonus) and, in some cases, a pension plan and a company car.

COMPOSITION OF THE MANAGEMENT BOARD AND THE SUPERVISORY BOARD

Professional suitability (i.e., whether the candidate possesses the requisite competence and experience) and personality traits (e.g., personal integrity) are material criteria in the selection and appointment of Management Board members. In addition, age and gender are also factors in the decision-making process. Independent management audits by external advisers, which are conducted as necessary, ensure that the decisions are based on objective evaluations. Since April 1, 2024, one woman sits on the Management Board of voestalpine AG. The members of the current Management Board are between 50 and 60 years of age, possess a range of educational credentials primarily in technical fields, as well as widely ranging professional and international management experience. The shareholder representatives on the Supervisory Board are elected by the Annual General Meeting in

accordance with the applicable statutory framework. At this time, the Supervisory Board includes four women and one non-Austrian national. The members of the Supervisory Board are between 53 and 72 years of age and possess a wide range of professional expertise along with professional and management experience.

STEPS FOR PROMOTING WOMEN

In the business year 2023/24, the percentage of female executives¹ was 14.5%, thus up slightly from 13.6% in the previous business year. One woman has been appointed to a divisional management position since the business year 2013/14. Since April 1, 2024, one woman is represented on the Management Board of voestalpine AG.

As part of internal leadership development efforts, great importance is placed on continuing to increase the number of female participants. The Group thus takes care to ensure that women are represented at each stage of the Leadership Development Program ("value:program"). Thanks to the consistent implementation of the Group's self-imposed commitment to boost the employment of women in all of the Group's divisions, the share of women in voestalpine's three-stage executive development program (pre-stage, stage 1, stage 2: total of 171 female and male participants) in the business year 2023/24 was raised to an impressive 32.7% (previous year: 23.3%).

¹ The basis of the calculation is the number of employees (headcount).

Overall, the percentage of women in the voestalpine Group in the business year 2023/24 was 16% (previous year: 15.7%). There are industry-specific, historical, and cultural reasons for this percentage—which remains low compared with other industries. In the public’s consciousness, the image of a steel and technology Group still conforms to the image of heavy industry, with the result that broad-based recruitment of female employees is a challenging undertaking. Nonetheless, the percentage of women in the voestalpine Group among salaried employees up to the age of 30 is now around 37.1%. Despite all of our efforts, however, women still only account for a mere 10.4% among workers.

There is a general desire to sustainably increase the proportion of women in the Group at all levels with suitable measures, in particular the proportion of women in management positions from the current 14% to 18% by 2030. These measures include a number of activities, some of which are country specific, e.g., participation in the “Girls’ Day,” the specific advancement of women in technical trades requiring apprenticeships, and/or boosting the hiring of female graduates of technical schools and universities. In addition, the establishment and expansion of in-house childcare facilities and/or collaborations with external facilities is being accelerated. Such facilities and partnerships already exist at many of the Group’s

locations. A kindergarten with 24-hour care was opened at the Linz location in the business year 2023/24. These offerings are supplemented by flexible work and shift models; enhanced technical training geared to women; upskilling opportunities for apprentices and assistants; mentoring programs; special health programs; guidance on equality and non-discrimination; and so forth. As a result of these efforts, by now women are also employed in leadership positions in the company’s traditionally male-dominated, technical areas. Women also hold executive positions in the financial, legal, strategic, communications, and human resources departments in a number of Group companies.

As part of the annual Human Resources Report, data on the percentage of women in executive positions is regularly collected and analyzed based on qualifications and training programs for the purpose of monitoring the long-term impact of all measures.

EXTERNAL EVALUATION OF COMPLIANCE WITH THE CORPORATE GOVERNANCE CODE

The Corporate Governance Code requires a regular external evaluation of the company’s compliance with the Code. This evaluation was carried

out by the Group's auditor as part of the audit of the 2023/24 financial statements. The review did not bring to light any facts and circumstances that would cause us to assume that the company's Consolidated Corporate Governance Report 2023/24 does not comply with material aspects of the Code. Compliance with the Code's C rules pertaining to the auditor (Rules 77 through 83) was reviewed by the law firm WOLF THEISS Rechtsanwälte GmbH & Co KG. This review confirmed that, in the business year 2023/24, voest-

alpine AG complied with Rules 77 through 83 of the Code to the extent that they are C-Rules.

The external review report may be viewed on the company's website www.voestalpine.com
