

# NI-BASE ALLOYS

## Application Segments

Aerospace	Automotive	Oil & Gas/CPI	Land Based Turbines
-----------	------------	---------------	---------------------

## Available Product Variants

Long Products*	Semi-Finished Products / Billet	Plates	Open Die Forgings
----------------	---------------------------------	--------	-------------------

\* Presented data refer exclusively to long products. Please observe the detailed explanations at the end of the data sheet (pdf).

## Product Description

BÖHLER L718AMS is a corrosion and heat resistant nickel alloy - precipitation hardenable - in the form of bars, forging and forging stock. High resistance to creep and stress-rupture up to 1300°F (704°C) and oxidation resistance up to 1800°F (982°C). High duty parts and components for oil & gas and CPI applications, components for automotive, gas turbines, aerospace engines, high-speed airframe parts such as disks, buckets, spacers and high temperature bolts and fasteners.

## Process Melting

VIM + VAR
-----------

## Applications

- > Other Aerospace Components
- > Chemical industry - general
- > Components for underground construction (drilling, shafts, etc.)
- > Fasteners, Bolts, Nuts
- > Other Power Generation Components
- > Well Logging Tools
- > Turbine and Engine Parts (Aerospace)
- > Components for Chemical plants (incl. LNG, FGD, Urea, LDPE, etc.)
- > CPI (incl. LNG, Urea)
- > Paper and Pulp Industry / Printing
- > Other Oil and Gas + CPI components
- > Wellhead, X-mas trees and Manifolds (incl. Tubing hangers), BOPs
- > Blades & Shafts for Turbines and Compressors
- > Components for Industrial Gas Compressors
- > Drilling tools and components
- > Power Generation (Gas/Steam/ Nuclear)
- > Well Completion Tools
- > Motorsport industry

## Technical data
