

LEOVA® FRUCTUR
THE SUPER-STRONG
STEEL STAKE!

 **FLEXIBLE**
like wood

 **LONG-LASTING**
like concrete

 **SUPER-STRONG**
from voestalpine

**PLACE, PUSH,
CLICK**
End cap with unique
click system

The future of fruit stakes begins with leova® FRUCTUR.
The steel stake is a cost-effective alternative that combines all
the advantages of concrete and wood.

LEOVA® FRUCTUR – PURE ADVANTAGES

voestalpine is now also bringing the steel quality tried and tested in viticulture to fruit growing. Flexible like wood, long-lasting like concrete and with an impressive array of advantages, leova® FRUCTUR, the super-strong steel stake, is the solution for modern fruit growing:

leova® FRUCTUR End 90x95mm, usable with tried and tested, commercially available accessories for concrete piles (caps, clamps).

Quickly and securely placed with the practical ground anchor.

Top benefit: Anti-hail nets are easy to fasten to the end cap.

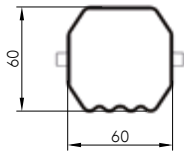

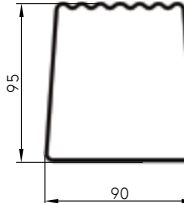

The efficiency is impressive

- » Light, long-lasting, super-strong voestalpine quality steel
- » Complete system: stake, cap, ground anchor, screw set
- » Easy to place (up to 20 hrs/ha quicker)
- » Highly resilient
- » Machine-proof
- » For all common types of wire
- » Secure wire anchoring

End cap with unique click system:
Place – push – click!

Strip galvanised as per standard EN 10346, 350 g Zinc/m²
