

## LEOVA® 50/40 FENCES

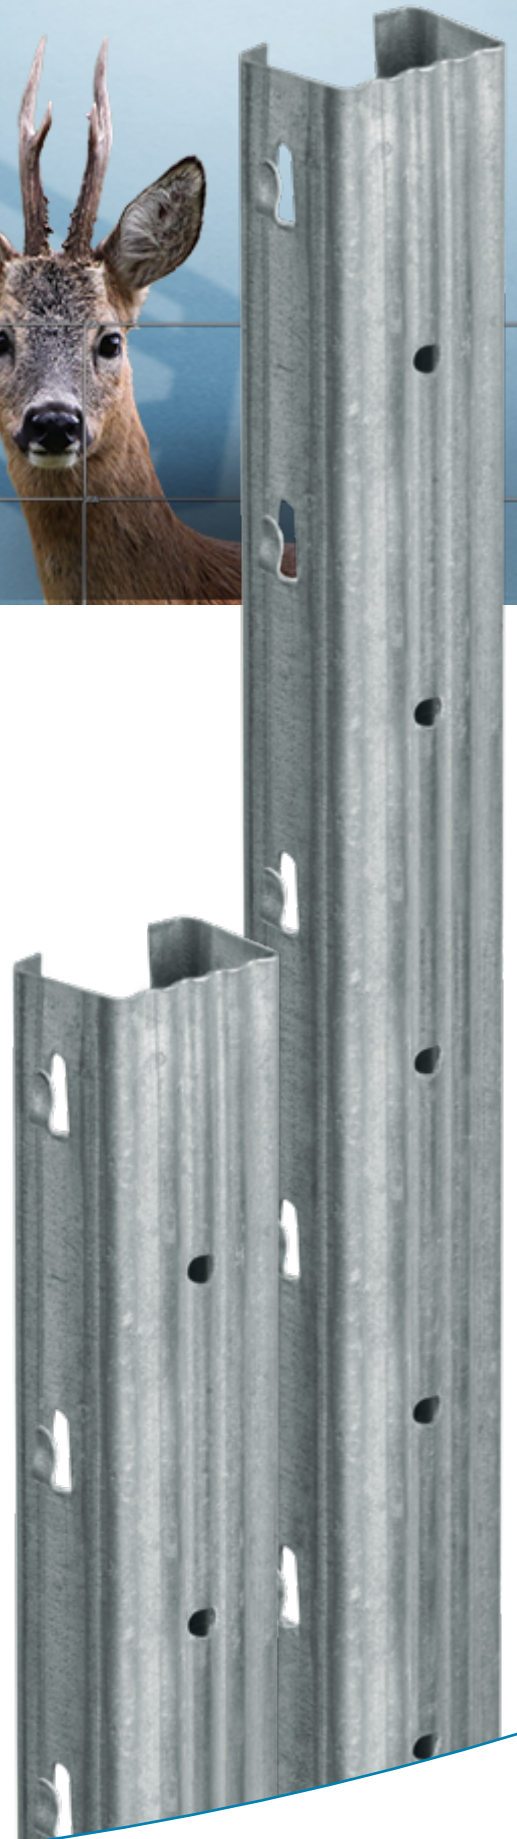

Proven, sturdy and easy to handle

Wire width: 53 mm

- » For all common types of wire
- » Easy to place
- » voestalpine quality steel
- » Strip galvanized
- » Suitable for all soil types
- » Hooks along the entire length

The external hooks make it quick and easy to attach the wire. The hooks running from the top to the ground mean that leova® fence posts are ideal for fencing in grapes and fruit, wine and tree nurseries or Christmas tree plantations. Because it's your harvest.

## SUPER STRONG – TO MEET YOUR REQUIREMENTS

### Strip galvanized according to EN 10346

350 g zinc/m<sup>2</sup>

#### leova® 50/40 FENCES (1.50 mm)

Length/mm	Item no.	kg/piece	hooks
1,800*)	F539013101800	2.92	12
2,000*)	F539013102000	3.25	16
2,250*)	F539013102250	3.66	16
2,500	F539013102500	4.07	20
2,750*)	F539013102750	4.47	20

leova® 50/40 FENCES can also be installed without problems on stony ground, either mechanically (e.g. using a hydraulic ram) or manually. Additional stability can be achieved by using anchor plates. The recommended insertion depth is about one-third of the post length (e.g. 2 m post: 60 cm in the ground).
