

## PRECISION PROFILES FOR THE ELECTRICAL INDUSTRY

---

Your proven partner in the electrical industry for the production of frame profiles for control cabinets, cable guides or conductor rails

- ✓ Extensive processing spectrum in cold and hot rolled steel, stainless steel and non-ferrous metals such as copper, aluminum and brass
- ✓ Just-in-time delivery in specified packaging units – also possible in reusable packaging and own customer containers
- ✓ Widths from 8.5 mm  
Wall thicknesses from 0.3 to 4 mm  
Lengths from 50 mm to 14 m  
(special lengths beyond that)

## APPLICATION EXAMPLES

- » **Special hat profiles** for switch boxes
- » **Frame profiles** for switch cabinet construction
- » **Profiles** as lamp bodies
- » **Construction profiles** in cooling and air conditioning systems
- » **Fastening profiles** in wind power plants

### Cold rolling instead of edge bending

- » Cost-effective and efficient production through cold rolling
- » Cost and time savings through various inline processing steps
- » Flexible capacities through innovative machinery

### Consistent and high quality

Embossing, marking, labelling or inkjet marking of the finished products within our production line
