

PRECISION PROFILES FOR STORAGE TECHNOLOGY

voestalpine Präzisionsprofil: Your reliable partner in the project business.
Our specialty: Specific stainless steel profiles for refrigerated warehouses and environmental storage technology.

- ✓ Special expertise in cold and hot strip, high-strength steels and stainless steel
- ✓ Many years of constructive experience in the field of automatic small parts storage systems
- ✓ Special manufacturing competence of shelves in material thicknesses from 0.5 to 0.8 mm, completely perforated in line, machined at the bar ends and separated with low burr
- ✓ Widths from 8.5 mm
Wall thicknesses from 0.3 to 4 mm
Lengths from 50 mm to 14 m
(special lengths beyond that)

APPLICATION EXAMPLES

- » **Upright profiles** for high bay racking
- » **Lower shelves** in wall shelf systems
- » **Price rail holding plates and skirting boards** in goods shelves
- » **Special profiles** in metal furniture and factory equipment
- » **Special U and L profiles** for roller conveyors

Your advantages with us

- » Minimization of tool costs through the possible provision of authorisation-free components from our extensive tool pool
- » Timely tool production using our own tool shop and external, approved suppliers
- » Flexible capacities on modern cold rolling mills
- » Rolling lots from 3,000 m without shortshipments
- » Implementation of individual packaging regulations
- » Fulfilment of your delivery schedule up to the construction site with our specialist forwarding agency
