CUSTOMIZED TRAINING COURSES & WORKSHOPS

Dear Customers, Partners,
and Colleagues,

Excellence puts us a step ahead and is the basis for outstanding performance. Here at voestalpine Böhler Welding we've set ourselves the goal of sharing expertise with our customers and partners in order to develop excellent solutions together.

That's why we've combined our know-how to create the weldingACADEMY, offering practical and customized training courses in welding & brazing.

GERHARD POSCH
VICE PRESIDENT
weldingACADEMY

- » Our starting point is the challenges you face, whether major obstacles or everyday tasks. Following an extensive analysis phase, we develop training goals, content, and scope.
- » Our trainers provide the metallurgical know-how and work together with the participants to create tailor-made solutions.
- » We ensure that all participants are fully supervised during the course, and our trainers remain available for questions after the event.

As a participant, you benefit twofold: from specialist knowledge and our trainers' extensive experience, as well as from customized training developed to meet your specific needs. By generating knowledge and developing solutions, the training plays a significant role in optimizing your company's processes.

Take advantage of our offer. I look forward to hearing from you.

Gerhard Posch

FOCUS & OFFERS

böhler welding
by voestalpine

Joint Welding

Training covers all standard arc welding processes including SMAW, MIG/MAG, TIG and SAW

utp maintenance
by voestalpine

Repairs and Hardfacing

Focus on courses in repair welding, corrosion and wear protection applications and thermal spraying (PTA)

fontargen brazing
by voestalpine

Brazing and Soldering

The seminars focus on all standard brazing processes used in toolmaking, automotive and HVACR

Materials Science and Process Training

Metallurgical courses on weldable base materials, from unalloyed steels to NiBas alloys

Product Training

The training courses cover the basic features and optimum handling of electrodes, solid and flux-cored wires, TIG rods, strips and fluxes

Industry-Specific Seminars and Workshops

These training sessions focus on the welding challenges faced in particular industries

Webinars

Transferring expertise in a quick and efficient manner saves time and money

ADVANTAGES & BENEFITS

Customized Training

Learning from Experts

Option of On-Site Training

Training in Small Groups

Training by Appointment

Seminar Documentation available in the E-Library

Modern Teaching Methods

„It was the professionalism of the seminar organization as well as training tailored to our exact requirements that convinced us.“

**Tihomir Marsenic, B. Sc. Mech. Eng.,
European Welding Engineer,**

„The experts at voestalpine Böhler Welding have decades of experience. As a partner, we benefit from this offer and can pass on newly acquired knowledge directly to our customers.“

Josef Gröblbauer, Vertrieb, Zultner Metall GmbH

„As an employee, I benefit from the practical training taught by in-house experts. I always have the latest product knowledge and can pass it on to my customers.“

**Lars Drieling, Schweißfachmann, Vertrieb Deutschland,
voestalpine Böhler Welding Germany**

„Welding know-how joins steel. The unique portfolio of the voestalpine Group was reflected in the trainer's outstanding metallurgical knowledge.“

Đuro Đaković, Termoenergetska Postrojenja d.o.o.

OUR PROGRAM FOR YOUR SUCCESS

The goal of the weldingACADEMY is to transfer and generate specialist know-how, as well as to provide practical training courses that help our employees, customers and partners to fulfill their tasks over the long term. Content, duration and scope are all adapted to reflect your particular needs. We offer one-to-one and group tuition at one of our sites or on your company premises.

JOIN! voestalpine Böhler Welding

With over 100 years of experience, voestalpine Böhler Welding is the global top address for the daily challenges in the areas of joint welding, repair, hardfacing and cladding as well as brazing. Customer proximity is guaranteed by more than 40 subsidiaries in 25 countries, with the support of 2,200 employees, and through more than 1,000 distribution partners worldwide. With individual consultation by our application technicians and welding engineers, we make sure that our customers master the most demanding welding challenges. voestalpine Böhler Welding offers three specialized and dedicated brands to cater our customers' and partners' requirements.

Lasting Connections – As a pioneer in innovative welding consumables, Böhler Welding offers a unique product portfolio for joint welding worldwide. More than 2000 products are adapted continuously to the current industry specifications and customer requirements, certified by well-respected institutes and thus approved for the most demanding welding applications. As a reliable partner for customers, “lasting connections” are the brand’s philosophy in terms of both welding and people.

Tailor-Made Protectivity™ – UTP Maintenance ensures an optimum combination of protection and productivity with innovative and tailor-made solutions. Everything revolves around the customer and their individual requirements. That is expressed in the central performance promise: Tailor-Made Protectivity™.

In-Depth Know-How – As a leading brand of soldering and brazing consumables, Fontargen Brazing offers proven solutions based on 50 years of industrial experience, tried and tested processes and methods. This In-Depth Know-How has made Fontargen Brazing an internationally preferred partner for every soldering and brazing task.
