

Lasting Connections

# RETURN & EARN

Secure your exclusive competitive advantage.

Take advantage of our limited bonus promotion to be one step ahead of your competition. Not only do you renew your equipment at advantageous conditions, but you also send a clear signal of innovation and efficiency in your field. Your bonus is key to advanced technology and increased competitiveness.

# YOUR BONUS ADVANTAGE

## Dear Customers

At a time when efficiency and productivity are more important than ever, we present you with a unique opportunity to take your company's performance to the next level while benefiting from our exclusive "Return and Earn" campaign.

With our „Return and Earn“ campaign, we reward your decision for a modern, efficient future. Swap your old welding machine, regardless of manufacturer and condition, for a new, state-of-the-art model from Böhler Welding and receive an attractive bonus that will be applied directly to your purchase.

## YOUR CHOICE

### MIG/MAG

### TIG DC

### PULSED MIG / MAG

### TIG AC

### MULTIPROCESS

## YOUR BONUS – YOUR ADVANTAGE:

Every ampere of your new equipment counts. Imagine: for a new 320 amp machine, you get €320. It's not just a bonus; it's an investment in your future.

RETURN & EARN  
**1 A = €1**

## WHY NOW IS THE RIGHT TIME

- » **Increased productivity:** Our latest welding machines offer not only outstanding performance, but also efficiency that significantly reduces your production times.
- » **Cost savings:** Reduce your energy consumption while minimizing maintenance costs thanks to the latest technologies of our welding equipment.
- » **Securing the future:** With voestalpine Böhler Welding, you can rely on future technologies that will keep you and your company competitive in the long term.

## ADVANTAGES OF THE TECHNOLOGY CHANGE

- » **Higher energy efficiency:** The amount of the benefits it relates to the technology of the returned machine. The older it is the more the efficiency increases.
- » **Ecodesign compatible (UE 2019/1784):** This means that the new equipment contributes to a more environmentally friendly footprint and it helps in terms of energy certification, audit and more.
- » **Higher welding performances:** The new Böhler Welding equipment performs better having modern arc-process with higher productivity (increase welding speed) and better quality (digital welding arc). Other benefits: reduced spatters, higher penetration and more.
- » **Ready for networking:** Unlike your old machine, Terra NX and Uranos NX could be netlinked thanks to the weldNET® platform provided by Böhler Welding. With this tool, you can monitor and control from a single panel all your welding synergic programs and produced reports for you or your customers.
